

Tarantula

Dynamic Virtual Perimeter Security
for Critical Infrastructure Protection

- » Event Positioning capabilities
- » Surface and Underground Detection
- » Low FAR
- » Active Buffer Zone
- » Local processing
- » Bottleneck free

CRITICAL INFRASTRUCTURE PROTECTION

Effective Virtual Fence Solutions
for the Energy market

- Heavy Duty Performance Technology
- Ultra low False Alarm Rate
- Effective MTTR-MTBF
- Integration with Collateral Security Systems - API Enabled

NOVEL EARLY WARNING SYSTEM

Concealed Passive Perimeter Security System

- Novel 3D Seismic Sensor
- Target Classification
- Event Positioning
- Weatherproof
- Single Calibration
- Deception Proof

SMART DEPLOYMENT

Challenging Array Displacement Capabilities
Supports demanding terrain:

- Out-of-Site Areas
- Small Valleys and Canyons
- Hills and Hummocks
- Urban Obstacles
